

Together
We Are Doing
Wonderful
Things

Nothing we've done, or plan on doing is remotely possible without the confidence, trust and support of the Staten Island community – Together We Are Doing Wonderful Things!

Over the past 12 years, the Joseph Maffeo Foundation has been blessed with the confidence, trust and support of the Staten Island community, as well as the staff at Staten Island University Hospital – Northwell Health. As we begin a new chapter and embark on an exciting new journey – we'd like to emphasize how very proud we are of our past work and accomplishments at the hospital:

- The redesign & complete renovation of the entire Pediatric Unit

- Our involvement and support of the pediatric unit of the Elizabeth A. Connelly Emergency & Trauma Center

- Our support of the Kids Against Cancer Pediatric Oncology Center

- Our support of the Florina Rusi-Marke Comprehensive Breast Center

Now the Journey Continues ...

With a new found energy, we are re-committed and about to embark on a new and wonderful journey – making our world a better place, not only for the children of Staten Island, but for the newborns, infants and their entire families. With our new found energy and enthusiasm, we will be spearheading the development and fundraising efforts for the construction of the much needed NEW Neonatal Intensive Care Unit (NICU) at Staten Island University Hospital-Northwell Health.

The Joseph Maffeo Foundation is proud and extremely honored to once again join the elite medical team and staff at SIUH. This relationship will help provide the necessary facilities and environment enabling the NICU staff to provide the outstanding care and support they strive to give.

Under the guidance of Dr. Philip Roth, Chairman of Pediatrics, Dr. Jonathan Blau, Director of Neonatology and Laura Wenzel, Sr. Director of Maternal & Child Health, the Joseph Maffeo Foundation will strive to enhance the capability and care, necessary to minimize these fears, by focusing our efforts on the construction of this brand new Neonatal Intensive Care Unit.

**We invite you
to join with us
as we embark
on this
new journey!**
